

ABOUT ME

I'm an outgoing girl with an eye for details. I love design, especially developing smart and technical solutions with the user in focus. On my spare time I create as much as possible, both by hand and digitally. I try to be outdoors as much as I can, always with my camera ready for a good shot.

JULIA LINDHAGEN

Master's Student, Graduate of Summer 2019, soon to be **DESIGNER AND PRODUCT DEVELOPER**

WORKING EXPERIENCE

BillerudKorsnäs, Frövi

PACKAGING DESIGNER

Summer 2018

Developed and designed packaging solutions for BillerudKorsnäs customers. Also created packages for display at Lux Pack fair and was responsible for technical questions.

Linköping University

MATERIAL LAB ASSISTANT

2017

Worked as an University employee at the Material Realisation Lab. My main duties were to find new material to the library, carry out laboratory work and advise students when choosing material for products.

BillerudKorsnäs, Frövi

CUSTOMER SERVICE SPECIALIST

Summer 2013-2016

I was working directly with customers from all over Europe. Main duties were placing orders and book transports. Basically to make sure the customers get the right material in time and solving problems fast and efficiently.

Egon Byporten, Oslo

WAITRESS

2013-2014

Working as a waitress at Egon byporten in Oslo centrum. My duties were to serve customers and taking orders at the cashier.

EDUCATION

Linköping University

MECHANICAL ENGINEER, DESIGN OCH PRODUCT DEVELOPMENT

2017-2019

Currently doing my master thesis at Chalmers University, involved in the project "The circular kitchen" working with kitchen design combined with circular economy.

University of Newcastle, Australia

EXCHANGE STUDIES

2017

One term of exchange studies in Australia. Continued studying master courses in my main field with numerous individual design projects.

Tongji University, School of Design and Innovation

INDUSTRIAL DESIGN

2017

During the spring of 2017, me and five students got a scholarship to go to Tongji University, Shanghai. We carried out a project course in industrial design together with Chinese students during two months.

Tullängsgymnasiet

DESIGN OCH PRODUCT DEVELOPMENT

2010-2013

High School studies with design and product development in focus.

OTHER COMMITMENTS

Faculty of Mechanical engineering, Linköping University

2017

NOMINATION COMMITTEE

Elected member of the Nomination Committee.

Faculty of Mechanical engineering, Linköping University

2016-2017

MEDIA COORDINATOR

Responsible for maintaining and updating the website of the Mechanical Engineering faculty.

I was the coordinator for the media group containing three persons.

EMMA, Women's association of Mechanical engineering, Linköping University

2015-2016

HEAD OF COMMUNICATION AND LAYOUT

Elected member of the board in the women's association EMMA. The main purpose of work was to support women at the Mechanical Engineering faculty. We created social events and also events with companies to help the members get in contact with the industry.

Tullängsgymnasiet, Örebro

2013

BOARD MEMBER

Elected board member of the student committee.
